

21-Day JavaScript Study Tracker & Daily Code Template

This document is designed to be used **daily**. You can copy the code template into your editor each day and tick off the tracker as you progress.

DAILY STUDY STRUCTURE (3-4 HOURS)

- ☐ Watch / Read (60-90 min)
- ☐ Code Along (60 min)
- ☐ Exercises (30-45 min)
- ☐ Mini Project (45-60 min)

DAILY JAVASCRIPT CODE TEMPLATE

Use this **same structure every day**. It builds good habits.

```
/* *****  
 * Day X - Topic: _____  
 * Date: _____  
 * ***** */  
  
// 1 Notes / Concepts Learned  
// -  
// -  
// -  
  
// 2 Warm-up Practice  
// Example:  
  
// 3 Exercises  
// Exercise 1:  
  
// Exercise 2:  
  
// 4 Mini Project Code
```

```
// 5 What I Struggled With
// -

// 6 What I Understood Well
// -
```

DAILY HTML + JS TEMPLATE (DOM DAYS)

Use this from **Week 2 onward**.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8" />
  <title>Day X Project</title>
  <style>
    body {
      font-family: Arial, sans-serif;
      padding: 20px;
    }
  </style>
</head>
<body>

  <h1>Day X - Project Title</h1>

  <!-- HTML Elements Here -->

  <script src="script.js"></script>
</body>
</html>
```

```
/* *****
 * Day X - DOM Project
 * ***** */

// 1 Select elements

// 2 Event listeners
```

21-DAY STUDY TRACKER

Tick each box when completed.

WEEK 1 – JavaScript Basics

- ☐ Day 1: Variables & Data Types
- ☐ Day 2: Operators & Conditions
- ☐ Day 3: Loops
- ☐ Day 4: Functions
- ☐ Day 5: Arrays
- ☐ Day 6: Objects
- ☐ Day 7: Review + Quiz App

WEEK 2 – DOM & Browser JS

- ☐ Day 8: DOM Basics
- ☐ Day 9: Events
- ☐ Day 10: Styling with JS
- ☐ Day 11: DOM + Arrays (To-Do App)
- ☐ Day 12: Local Storage
- ☐ Day 13: Forms & Input
- ☐ Day 14: Review & Refactor

WEEK 3 – Advanced + Projects

- ☐ Day 15: ES6+ Features
- ☐ Day 16: Async JS & APIs
- ☐ Day 17: Error Handling
- ☐ Day 18: Modules & Structure
- ☐ Day 19: Final Project Planning
- ☐ Day 20: Final Project Build
- ☐ Day 21: Polish & Deploy

WEEKLY REFLECTION

Fill this at the end of each week.

What I learned well:

-

What needs more practice:

-

Projects completed:

-

FINAL GOAL CHECKLIST

By the end of 21 days, I can: - ☐ Write JavaScript without copying - ☐ Manipulate the DOM - ☐ Build small apps - ☐ Debug my own code - ☐ Use APIs

Tip: Save this file or paste it into Notion / Google Docs and update it daily.
